SCOOTSAFE

Here's our top tips for scooting safely

1

Always wear a helmet, especially important if scooting near roads.

2

Don't scoot too fast on pavements.

3

Don't scoot off, either wait for your mum/dad to catch up or scoot back to them

4

Be courteous to other pavement users.

5

Always listen out for cars as they might be reversing out of their driveway.

6

Take extra care when crossing the road. Always walk, don't scoot.

7

Look out for changes in path surfaces as this might cause you to go quicker or slower than you expect.

8

Wheelie bins can make the pavement very narrow, so get off your scooter and walk past them.

9

Keep away from scooting on the edge of the pavement, always scoot on the inside away from the road.

10

Ensure you wear bright clothing, or reflective jackets, and put a light on your scooter so you can be seen
