Advice to parents Re: Coronavirus

Dear Parents and Carers,

While we have no cases of Coronavirus in school, we are taking steps to ensure that if the Government state that schools must close, we are preparing learning resources for all children.

As urged in our weekly bulletin on Friday, please ensure that you have a device which could be used for online learning. Unfortunately, our insurers have said that under no circumstances can we loan laptops or Ipads so I am asking parents to try to provide their child with suitable equipment.

Please bear in mind that some countries have closed their schools for 16 weeks.

In the meantime, we will be sending children home with a high temperature or/and a new cough. We will be expecting families to isolate the child for 7 days. This will not affect the child's attendance in these circumstances.

We continue to respond to Government and Public Health England advice and will keep you updated as soon as we can.

Yours sincerely

HJ McCarney
